The summer school is organized by the University of Salzburg (Austria) and the Society for Urban Ecology (SURE) in cooperation with Austrian and international partners. It aims at exploring human and environmental challenges and finding solutions for these. The Alps, Europe's highest mountain system, serves a perfect study area for this purpose. The school will include training on research methodology and group work on various research projects. The research part will be in connection of the Summer School from 15th till 21st of July.
